Sub: IGNITE 12: A nationwide campaign to harness the creative and innovative spirit of school children by National innovation Foundation.

Dear Sir/Madam,

National Innovation Foundation (NIF), an autonomous body of the Department of Science and Technology, Government of India aims to recognize, respect and reward grassroots technological innovators and traditional knowledge experts. NIF is striving to make India innovative, self-reliant and a world leader in sustainable technologies. NIF provides an institutional platform for the knowledge-rich, economically poor people.

In order to promote originality and creativity among school children NIF organizes the IGNITE - nationwide competition of students' original technological ideas and innovations. IGNITE 12 is accepting entries till August 31, 2012. The awards for the same will be announced on October 15, 2012, birthday of Hon'ble former President of India, Dr. A.P.J. Abdul Kalam; celebrated as Children's Creativity and Innovation Day by NIF. The awards will be given by Dr. Kalam at his convenience thereafter. All school going children up to class XII of any school (and even out of school) can participate in the competition either by sending their entries through post or online at ignite11@nifindia.org (For more details, please log on to <http://www.nif.org.in/ignite/>).

In the last campaign (Ignite 11), we received the 4104 entries from 25 States and Union Territories and we have been giving the patent filing documents to the student winners on the day of the award function and also facilitating prototype development in almost all the cases. Two of the previous years IGNITE awardees Mr. Abhishek Bhagat and Ms. Masha Nazeem got National and State awards respectively from Hon'ble President Smt Pratibha Devisingh Patil in National Biennial Grassroots Innovation Award function of National Innovation Foundation India in March this year.

Ten technologies of IGNITE winners have been showcased in the last three innovation exhibitions organised at the Rashtrapati Bhavan by NIF. Most awardees have been interviewed by leading National and International print and electronic media including DD, Lok Sabha, BBC, ToI, Hindu, Indian Express, rediff and many more. Some of the innovative solutions are also being designed further to take to market through our partnership with Future Group.

Children can submit entries in any or all of these categories: a. Ideas of technologies not yet developed (avoid teleporting or dream reading etc.) b. Innovative products developed by the students (does not matter if these are crude or just proof of concept) and c) distinctive traditional knowledge of the elders / communities with some experiments to support the same. Projects guided by teachers/parents will not be accepted.

Central Board of Secondary Education (Including Kendriya Vidyalaya Sangthan and Navodaya Vidyalaya Samiti) is actively supporting the competition. I request your Board also to issue circular to this effect so that students of your board can also actively participate in the competition and possibly win award at the national level. The dream of an innovative and inclusive India cannot be fulfilled without making our children creative and compassionate and for this I seek your active support. Please encourage students to look for other innovators and outstanding tradition knowledge holders also and send us reports about them. Such children will be considered for Ignite scouting awards. All the entries under annual Ignite contests are also eligible for our biennial Presidential award function.

The relevant background material about IGNITE 12 competition is enclosed with this letter.

Looking forward to your kind cooperation.

With best regards,

A handwritten signature in black ink, appearing to be 'AK' with a stylized flourish.
